

PENDING CLAIMS

1.     **(Original)** A DNA encoding a plant protein that has a binding activity to a chitin oligosaccharide elicitor, wherein the DNA is any one of (a) to (d):
  - (a) a DNA comprising the nucleotide sequence of SEQ ID NO: 1 or 3;
  - (b) a DNA that hybridizes with a DNA comprising the nucleotide sequence of SEQ ID NO: 1 or 3;
  - (c) a DNA encoding a protein comprising the amino acid sequence of SEQ ID NO: 2 or 4; and
  - (d) a DNA encoding a protein comprising an amino acid sequence with a substitution, deletion, addition, and/or insertion of one or more amino acids in the amino acid sequence of SEQ ID NO: 2 or 4.
2.     **(Original)** The DNA of claim 1, wherein the plant is rice.
3.     **(Withdrawn)** A protein encoded by the DNA of claim 1 or 2.
4.     **(Original)** A vector comprising the DNA of claim 1 or 2.
5.     **(Original)** A transformed plant cell that carries the DNA of claim 1 or 2, or the vector of claim 4.
6.     **(Original)** A plant transformant comprising the transformed plant cell of claim 5.
7.     **(Original)** The plant transformant of claim 6, which is derived from rice.
8.     **(Original)** A plant transformant that is a progeny or a clone of the plant transformant of claim 6 or 7.
9.     **(Original)** A breeding material of the plant transformant of any one of claims 6 to 8.

10.     **(Original)** A method for producing the plant transformant of any one of claims 6 to 8, wherein the method comprises the steps of introducing the DNA of claim 1 or 2, or the vector of claim 4 into a plant cell, and regenerating a plant from the plant cell.
11.     **(Withdrawn)** A pharmaceutical agent used to control a plant disease, wherein the agent comprises the DNA of claim 1 or 2, or the vector of claim 4.
12.     **(Withdrawn)** The pharmaceutical agent of claim 11, wherein the plant is rice.
13.     **(Withdrawn)** The pharmaceutical agent of claim 12, wherein the disease is blast.
14.     **(Original)** A method for controlling a plant disease, wherein the method comprises the step of expressing the protein of claim 3 in a cell of a plant.
15.     **(Original)** The method of claim 14, wherein the plant is rice.
16.     **(Original)** The method of claim 15, wherein the disease is blast.
